WASHINGTON.

Colonel Scott's Latest Scheme—Department of Justice Expenditures—Printing Office Matters.

By American Press Association to the STAR.
WASHINGTON, March 27.—The Senate Committee on Railroads will to-day take a vote on the southern Pacific Railroad proposition, which asks the privilege of building east from Colorado River, with the privilege of taking the Texas Pacific land grant as far as the road is constructed eastward. Colonel Scott is here to-day, and has been actively at work to destroy the impression prevailing that he had made a compromise with the Southern Pacific.

The Committee on Expenditures of the Department of Justice, of which Canfield of Illinois, is Chairman, has commenced an earnest inquiry as to the expenditure of the contingent fund of the Department, and has already traced large sums as having been expended in Ku-Klux raids. Ex-Attorney General Williams and Comptroller Broadhead were before the Committee Saturday to explain the expenditures. Williams, it is understood, did not hesitate to admit that the bulk of the fund was expended on account of Ku-Klux.

The House Committee on Printing will shortly report a bill making a number of needed reforms in the Government printing office, and which will be intended to reduce the expense of printing the records and public documents generally. In the course of their investigations they have not found anything to reflect upon Mr. Clapp, but to work reform and economy the system must be changed by law.

Another effort will be made this session to give the House joint control with the Senate over the appointment of the printer. The House will pass an act to that effect as it has repeatedly done, but in view of the fact that the Senate refused to concur when the House was Republican, it will scarcely do so now that it is Democratic.

One of our city papers yesterday published four columns of letters from discharged employees of the Bureau of Engraving and Printing, showing a terrible condition of destitution and suffering among the unfortunate people. Many of them have not, it is true, been absolutely discouraged, but simply lurching, and will be taken back as soon as Congress makes an appropriation to enable work to be resumed; but the amount to be appropriated is believed to be totally inadequate by the Department, and will not allow work to be conducted more than two or three months.

NEW YORK.

Cure for Hydrophobia—Fire in Jersey City.

By American Press Association to the STAR.

NEW YORK, March 27.—The Sunday Mercury says the discovery has been made of a remedy for hydrophobia. This remedy is known as wooran, a most violent poison, obtainable only in South America. It cures a case of cure in a James Mahoney in Jersey City, who was bitten several weeks ago by a dog, and when developed in hydrophobia the attending physicians finally decided to treat the patient with wooran. Three hypodermic injections into the arm of one third of a grain each time were administered, an improvement being apparent after each one, and he speedily recovered, with no ill effects from the poison.

A fire in Jersey City in a mule yard destroyed two large stables and a large quantity of hay, oats, &c. Over one hundred and fifty mules were on the premises at the time, but were all saved. Loss about \$20,000.

NOTES.

NEW YORK, March 27.—Mr. Barney Williams is still very ill.

A. T. Stewart has completely recovered.

A BROOKLYN MATTER THAT IS NOT NEW.

The committee of five clergymen appointed by the Brooklyn Congregational ministers to recommend what measures, if any, should be taken by the Association to assure itself of the falsity of the charges of adultery against Mr. Beecher, has drawn up a report, which will be submitted at the annual meeting of the Association, April 1. The committee recommends that the Association wait until the plan devised by the Advisory Council expires by limitation before taking any steps. It recognizes, however, the importance of having a thorough and satisfactory investigation.

A very destructive hurricane prevailed all over Germany on Sunday, March 12. In the city of Cologne especially the hurricane waged with great fury and did much damage.

The New England Storm.

By American Press Association to the STAR.

NEW HAVEN, March 27.—A storm commenced Saturday morning about 3 o'clock with snow, which soon turned to rain which did not cease until this morning. On all the railroads leading into this city there has been some damage. The train on the Canal Road due here Saturday night at 9 o'clock met with an accident four miles above Mt. Carmel, by which the engine, tender and baggage car were thrown down an embankment about sixteen feet, the engineer, John Carpenter, receiving serious injuries. No communications could be held with this city because of the carrying away of the bridge and owing to the state of the country roads, and the passengers remained at that place all night and were not relieved.

The wrecking train reached there, which left here about 6 o'clock Sunday morning. The water had undermined the spilling, leaving the road-bed intact, so that the damage could not be seen by the engineer. The bridges over West River connecting this city with Westville, were rendered impassable, owing to the working away of the approaches. A good deal of damage was done to the various streets and highways here. The city's road commissioners were out yesterday inspecting the various places of danger and giving orders for temporary work to render them safe. The quantity of water which fell was almost unprecedented for any one rain fall. The meadows lying on the north and west of the city have been flooded and vast sheets of water have covered them. Last night there was a further fall of rain, but not in such quantity as to cause apprehension. It can not now be estimated what it will cost to repair the damage.

By American Press Association to the STAR.

Daniel Drew, financier, who recently went into bankruptcy, is reported seriously ill at his residence in this city.

The steamship Great Western, from Gibraltar for New York, Captain Wyndham, with a cargo of oranges, lemons, sulphur, &c., is ashore at Fire Island, and is full of water. She carries no passengers, the captain is sick. The steamship Egypt, from Liverpool, Harrisburg and Philadelphia, has arrived at this port.

Coming.

By American Press Association to the STAR.

NEW YORK, March 27.—A special from Rio Janeiro says the Emperor and Empress of Brazil embarked yesterday at 8 A. M. on board the steamship Helvetius for the United States. The Princesses of the Imperial Household, the Countess of the Imperial Household, and the Countess of the Imperial Household accompanied their Majesties on board. The chief civil and military authorities attended the embarkation.

The Helvetius collided with a Brazilian naval transport as she moved out of the harbor. No lives were lost. The Empress was crushed against the door of the cabin, although not much hurt.

Chas. H. Booth, a transportation clerk in the Quartermaster's Department at San Francisco, was arrested a few days ago, having defrauded the Government to the amount of \$60,000, most of which he restored after being arrested. Yesterday he was ordered to confinement at Alcatraz, but while taking a bath before starting escaped, and has not yet been recaptured.

The National Convention of the Jewish Order, Keshar Shul Bazel, was held in Philadelphia yesterday. B. H. Seigman, of Chicago, was elected President; S. M. Volkenburg, of Albany, A. Kemnitz, of Philadelphia, John Reinheim, of Cleveland, N. Goldsmith, of Aurora, Illinois, and Rev. Geo. Jacobs, of Philadelphia, Vice Presidents.

Attempting to force his way through the group, Mr. Gleason pushed him away. The man pulled a pistol and threatened to shoot. In a few seconds afterwards he stopped a few paces back and commenced firing. Two shots were fired before the party could retreat around the corner, both missing. One bullet struck the lamp-post near by. Again the drunken villain fired, soon after which Mr. James Gallagher, a policeman on duty, came running down stairs from the Longworth-street house, where he boarded, and accosted the shooter with "What are you doing?" The ruffian replied, "I'll show you what's the matter," with an oath, and shot the officer through the stomach.

Gallagher returned two shots at his assailant, who, with a single pistol had started to run down Longworth to John street. A young man named Frank Noell started in pursuit of the fugitive and caught him midway of the square, and soon after Officers Elder and Smallwood came up and took him into custody. His pistol was picked up by Mr. Noell, and was found to be covered with blood from a wound in the murderer's hand. On being taken to the Ninth-street Station-house he gave his name as James F. Dunbar, an engine builder, but would not state his place of residence.

In the meantime poor Gallagher had entered the tailor shop in the basement of the Longworth-street House and soon after was assisted to his room in the hotel. Dr. Philip Williams and Dr. Maley were soon after called in and upon examination it was found that the bullet had penetrated the abdomen, in the region of the spleen, about an inch and a half below the umbilicus and between four and five inches to the left of the median line. He suffered terrible agony.

Dunbar being sent for, he entered the dying man's room under guard, but Gallagher, whose eyes were growing dim, failed to recognize him as his assailant, and he was taken away, declaring that he never shot the man.

Officer Gallagher has performed no police duty until this occurrence for several weeks.

The mortally-wounded man received all the attention that was possible, but died ended his agony at noon yesterday.

The prisoner has admitted that his name is not Dunbar, but refuses to disclose what it is. It being ascertained that he had a room at No. 351 Central avenue, Colonel Snibaker and Officer Logan searched the premises and found a satchel filled with a miscellaneous collection of articles, some of which might have been used as burglar's tools. A list of the names of prominent citizens, some of whose houses have been recently entered by thieves, were found written in a neat hand.

James Gallagher, the victim of this whisky-soaked wretch, was aged about forty-five years and unmarried. He was a carriage painter by trade, and a first-class workman. He was a kind-hearted and inoffensive man, and universally respected wherever he was known.

The prisoner was arraigned before Judge Lindemann this morning, and, waiting examination on the charge of murder in the first degree, was bound over to the Grand Jury, with the understanding that no bail will be taken.

Amusements.

After a season of little interest our theaters now offer attractions that are sure to draw crowded houses. We are in fact just on the eve of the most important theatrical period of the year.

At Wood's Theater, the great Edwin Booth opens this evening in "Hamlet," with Mr. B. Macauley as "Ghost," Miss Cummins as "Ophelia," and the best support throughout that has ever been rendered him in this city. To-morrow night, "Richard III."

At the Grand, the Richings-Bernard Opera Company will appear every night this week and Saturday matinee. Monday and Tuesday evenings, Balfe's latest opera, "Letty." This company is now one of the very best and embraces the following eminent artists: Caroline Richings, prima donna soprano; Mrs. Henri Drayton, mezzo-soprano; Miss Jessie Bartlett, contralto; Mr. Pierre Bernard, tenor; Mr. John J. Benitz, basso cantante; Mr. F. Holmes, baritone; Miss Emma Phillips, second donna; Mrs. Anna Buck, soprano; Kate Thayer, alto; Mr. Frank Reuss, basso secondo; Mr. Frank Sellers, tenor; Mr. E. J. Pryor, tenor; Mr. Frank Hewett, pianist.

But even this is not all, for at the Grand there will be three family matinees this week by the regular company: Tuesday afternoon, "Leda Astray;" Wednesday, "Marble Heart;" Thursday, "Romeo and Juliet." This will probably afford the last opportunity of seeing Mr. Frank Roche. Notwithstanding the excellence of these entertainments the admission to all parts of the house will be only 35 cents.

The Pioneer Advertiser.

Mr. S. H. Parvin, the pioneer advertising agent, who has devoted all his time and energies for the last quarter of a century to his line of business, to-day celebrates the twenty-fifth anniversary of his agency in our city. They are both young men of excellent character and fine business ability, and all that their many friends can desire is that the new firm of S. H. Parvin & Sons may move along as smoothly and prosperously as the old one.
